Lorne Proudfoot Again U.F.A. Choice Acadia Constituency

Forty-five delegates and over 150 visitors attended the convention of the Acadia Provincial Constituency Association, held in Cereal last Saturday. Mr. Proudfoot's name was the only one before the convention as U.F.A. candidate in the coming election and he was duly declared the unanimous choice of the delegates. Mr. Proudfoot gave a report of the session just ended and spent some time discussing the new protective laws for farmers and householders. Mr. Russell Love, provincial treasurer, was unable to make his scheduled appearance on account of car trouble and bad roads. Mr. G. Johnson who took his place as speaker of the evening, gave an exhaustive analysis of Aberhart's Plan of Social Credit. He closed with a plea for tolerance of the other fellow's opinion and for sound thinking in the next few weeks by the electorate.

The following officers were elected: J. E. Bergh, Cereal, president; N. D. Stewart, Chinook, vice-president. Directors: District No. 1, J. Frey, Arneson and Mrs. J. Young, Bindloss; Division No. 2, R. Johnson, Helmsdale and J. Hannifred, Howie; Division No. 3, J. E. Cameron, Wastina and Mrs. H. Hille, Cereal; Division No. 4, D. Warwick, Oyen and Mrs. Michaels, Excel. Secretary-Treasurer, Mrs. C. A. Bishop, Excel.

"Too Much Wealth In the Hands of a Few People"

In the countryside, in streets of villages, towns and cities; in homes, in market places, from pulpits and public platforms; from men in many walks of life you hear the same pronouncement—"Too much wealth in the hands of too few people."

Who can rectify such an unsatisfactory state of affairs?

In many instances the people themselves have the remedy.

In the grain business the grain growers have the remedy in their co-operative marketing organization. All they need to do is to give their patronage.

Co-operative organization is the most effective means of preventing accumulation of great fortunes in the hands of a few people.

Co-operation never makes millionaires.

The depressed price of farm products is a problem with which everyone is familiar, but on the 1913 basis farm product prices have never been as low as gasoline. Between 1913 and 1920 gasoline did not rise in price to nearly the same extent as farm products, yet since 1920 its price has almost continuously declined. The data for the above graph are based on figures published by the Dominion Bureau of Statistics.

A FAIR DEAL POLICY

In the fifty-four years of its existence, Imperial Oil Limited has always welcomed legislation in the interests of labor and the basic industries. It has never had a labor dispute. It has always paid fair wages. To the greatest extent possible it has provided continuous employment and it has given its workers increasing leisure so as to expand employment. It has sickness and death benefits and old age pensions because it believes that the worker and his dependents are entitled to such protection.

Imperial Oil has always tried to deal fairly with collateral industry and with its competitors. Its success in this connection is indicated by the fact that it has never had a major lawsuit. It has always recognized the principle that the only satisfactory business transaction is the one which affords a fair profit to all parties concerned. It has fulfilled all its undertakings. It has enforced no onerous claims on others.

Imperial Oil has always tried to deal fairly with the consumer. It has continuously improved the quality and steadily reduced the prices of its products. It has invested millions to make those products always available wherever they may be needed.

In 1934 Imperial Oil earned \$3,023,400.12 from its Canadian manufacturing and marketing operations. This, you may say, is a lot of money, but to earn that amount Imperial Oil had to make and market goods to a value of \$82,841,311.15. The storekeeper who in the course of a year sold \$8,280 worth of goods and made a profit of \$300 would not be regarded as enjoying an undue measure of prosperity.

But his ratio of profit to the total volume of his business would be the same as Imperial Oil's.

It has been Imperial Oil's practice to "make wisely, measure truly, trade justly" for this it believes to be the secret of success.
